The **Compass** allows you to assemble and display a large HORIZONTAL banner in just a few seconds.

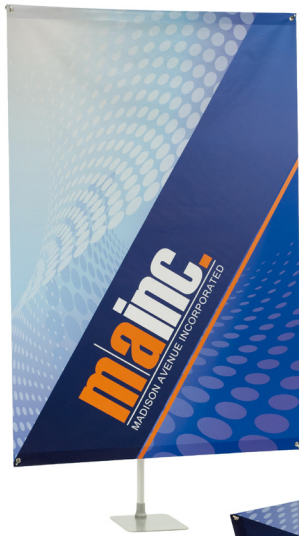

It's the perfect welcoming message for your registration area. But there's more... An innovative pivoting central hub allows you to rotate your banner 360 degrees, and even tilt the graphics up and down. Adjust the height to suit your needs.

Great for branding your stage. Or use multiple stands to create an exciting backdrop. It's also an easy table display header, or eye-catching angled display.

Choose either digitally printed Premium Fabric or the more economical Curl-Free Vinyl in any of three standard sizes.
