

Stake Signs

Available Graphic Materials

Our 18" x 24" **Stake Signs** have many uses.

Our *Stake Signs* are made from lightweight, waterproof, corrugated plastic and are durable enough to last for several golf outings, which makes them a solid investment.

Digitally printed and personalized to your specific event, the signs are held in place using rust-proof wire stakes that do not harm the turf. Set up takes seconds.

Also, we can print your sponsor message directly on the sign face, or you can add one of our cost-saving *SMARTlens*® components, which allow you to print your own message on your desktop printer.

Why buy new signs every time your sponsors change? Instead, you can easily print the new sponsor message, saving you time and money.

A-Frame Signs

Available Graphic Materials

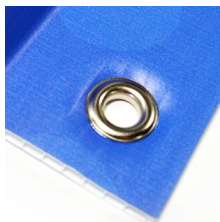

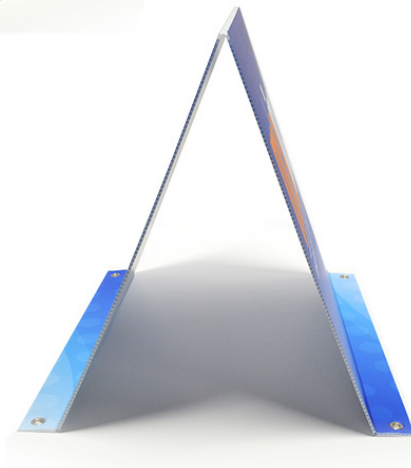

Our Unique *A-Frame Signs* stands tall in the wind.

With its large 22" x 24" graphic image area, our distinctive A-Frames give you more room to work with graphically, each sign sets up in seconds and are held in place with golf tees in each corner.

They are made from corrugated plastic that is lightweight, waterproof, available in twelve colors, and durable enough for several outings.

Also, we can print your sponsor message directly on the sign face, or you can add one of our cost-saving SMARTlens® components, which allow you to print your own message on your desktop printer.

Why buy new signs every time your sponsors change? Instead, you can easily print the new sponsor message, saving you time and money.

Grommeted corners to hold in place with golf tees
